GRADUATE LAW PROGRAMS

J.S.D. Program in International Human Rights Law

Since 1992, the Notre Dame Law School has admitted a small number of students to candidacy for the degree of doctor of juridical science (J.S.D.). This program is designed especially for persons who teach in the field of international human rights law and who seek additional education beyond the LL.M. degree level.

LL.M. Program in International Human Rights Law (Notre Dame Campus)

The Notre Dame Law School initiated a master of laws (LL.M.) program in international human rights law in 1988 in response to a growing worldwide need for education in the field of human rights. The program affords lawyers who come primarily from outside the United States the opportunity to engage in specialized study and research in international human rights law. Program participants undertake an intensive analysis of human rights issues guided by specialists in the field, and develop the skills necessary to practice or teach international human rights law.

The LL.M. program also draws upon the resources of the University's Helen Kellogg Institute for International Studies, the Joan B. Kroc Institute for International Peace Studies, the Department of Political Science and other academic units of the University. The interdisciplinary nature of the program allows students to study not only the legal processes and institutions pertaining to human rights, but also the social, economic and political contexts in which human rights are promoted, protected or violated.

LL.M. Program in International and Comparative Law (London Campus)

In 1986, the Notre Dame Law School instituted a master of laws (LL.M.) graduate program in international and comparative law at the Notre Dame London Law Centre in London, England. Designed to build upon the full-year and summer programs for J.D. students in London, this LL.M. program allows both American and non-American students to earn a degree from a U.S. law school while studying in England.

The program is designed for law school graduates from common-law countries who seek advanced training, as well as for law school graduates from civil-law countries who seek training in common-law disciplines or who wish to pursue studies comparing their legal systems with those of the United States and Great Britain.

DUAL-DEGREE PROGRAMS

The J.D./M.B.A. Program

In 1970, the Law School and the graduate division of the University's Mendoza College of Business introduced a combined four-year program of study leading to the degrees of juris doctor and master of business administration. Students in this dual-degree program divide their time between the Law School and the Mendoza College of Business, studying the full curriculum of both schools. The reduction by one year of what normally would be a five-year program of study is achieved by allowing certain common courses and some elective courses to count toward both degrees.

The M.B.A. program is under the direction of the graduate division of the Mendoza College of Business. The business curriculum combines an intensive study of basic business disciplines with the decision-making experience of case analysis in a unique enterprise workshop and emphasizes a close working relationship between faculty and students.

Students who wish to participate in the joint J.D./M.B.A. program must be accepted for admission by both the Law School and the graduate division of the Mendoza College of Business. For more information, contact both:

The J.D./M.A. in English Program

In 1991, the Law School and the Department of English instituted a program that allows J.D. students to earn an M.A. in English. To complete the M.A., students typically take 21 hours of English courses and count nine hours of courses within the J.D. curriculum toward the M.A. degree. Normally, program participants would pursue the nonresearch M.A.; those who opt for the research M.A. must also complete an additional six hours of thesis research.

Since the Law School allows nine hours of electives, program participants may complete nine of the required 21 hours of course work in English during the regular three-year course of study toward the J.D. degree. The other 12 hours may be completed by enrolling in the University's summer sessions, by enrolling for an additional semester after completing the J.D. degree, or by a combination of these two options. Upon admission to the program, the student creates a program of study with the advice of the director of graduate studies in English and the assistant dean for students in the Law School. The program of studies is coordinated by the Graduate School.

The program is open only to students already admitted to the Law School. Program participants must be admitted to the program through the procedures of the Graduate School and the Department of English. For more information, contact both:

Students interested in environmental, patent or telecommunications law may apply for a dual-degree program through the Law School and the College of Engineering.

Other Dual-Degree Programs

Where appropriate and with the approval of the departments involved, other dual-degree programs may be fashioned to suit individual interests or needs. Inquiries should be addressed to the particular departments involved.

REQUIREMENTS FOR GRADUATION AND GOOD ACADEMIC STANDING FOR THE J.D. PROGRAM

Graduation Requirements

To graduate from the Notre Dame Law School with the juris doctor degree, students must complete 90 hours of approved courses, must maintain a cumulative grade-point average of 2.0 over six semesters, and must be in residence for six semesters. A semester in residence normally is not fewer than 14 credit hours.

Conferral of the degree is contingent upon successful completion of the prescribed program of instruction. The degree may not be conferred upon any student who has been found guilty of dishonest or dishonorable conduct.

Graduation Honors

<i>Cum Laude</i>	3.400
<i>Magna Cum Laude</i>	3.600
<i>Summa Cum Laude</i>	3.800

The specific requirements for calculating graduation honors are described in the *Hoynes Code*, an administrative code that governs the Law School and may be found on the Law School's home page (<http://law.nd.edu>).

Grading and Academic Standing

Grades are divided into letter categories with numerical values as follows:

A.....	4.000	C+	2.333
A-.....	3.667	C.....	2.000
B+.....	3.333	C-	1.667
B.....	3.000	D	1.000
B-	2.667	F	0.000

Individual grade point averages are calculated for use by the student and for internal use by the Law School in determining academic standing and honors. The minimum acceptable grade point average to maintain good academic standing varies with class level. The complete grading policy is distributed to each entering class. A student who fails to maintain the minimum acceptable grade point average will be ineligible to continue into the next semester.

There is no calculation or publication of "ranking" or "class standing." The Law School does, however, publish the mean grade point average for each class level. A student who fails a required course must repeat it and obtain a passing grade. This requirement may be relaxed by the faculty member responsible for the course only if good cause is shown. A student who fails an elective course does not need to repeat the course; however, the student earns no credit toward graduation for any failed course.

Grade Reports

The Office of the Registrar no longer mails a paper copy of grades unless a copy is requested. Grade information is available to students on insideND (inside.nd.edu). The Printed Grade Report Request form is available from the Office of the Registrar Web site.

Cocurricular Courses

Some courses offered are identified as cocurricular. For a complete statement on the policies relevant to cocurricular course work, students should consult the current edition of the *Hoynes Code*.

Course Requirements

Generally, grades are based on a final examination alone. At the discretion of the faculty member responsible for a particular course, multiple examinations, a term paper, or term project may be required in lieu of or in addition to a final examination. To be eligible to take an examination in a particular class, students must attend classes regularly and punctually, and must participate in class to the satisfaction of the faculty member responsible for a particular course.

Examinations are not proctored, but rather, are written on the honor system. Under the Notre Dame Law School Honor Code, every student who enters the Law School is bound neither to give nor to receive unauthorized aid in any examination.

To ensure impartiality, written examinations are taken anonymously, identified only by an examination number which is randomly generated and assigned prior to examinations.

All examination papers and written assignments are read and graded personally by the member of the faculty responsible for a particular course.

Change of Regulations

The Law School and the University reserve the right at any time to change any regulation pertaining to admission to, continued enrollment in, or graduation from the Law School. All law students are bound by University regulations contained in *du Lac: A Guide to Student Life*, published and distributed to all students each fall. Law students must also conform to additional regulations listed in the *Hoynes Code*, an up-to-date copy of which is maintained in the Kresge Law Library and is available online.

TUITION AND FEES

Tuition

The tuition for the 2005–06 academic year is approximately \$31,820.

Miscellaneous Fees

Technology and student activity fees amount to approximately \$400 annually for all law students. In addition, students may be charged a small additional fee for printed matter related to preparation for the study of law. There is no charge for transcripts.

Payment

Tuition and fees must be paid prior to the beginning of the semester. Checks should be made payable to the University of Notre Dame and sent to:

Office of Student Accounts
 University of Notre Dame
 100 Main Building
 Notre Dame, IN 46556-5602

Change of Fees

Tuition and fees may be changed at any time without prior notice, and new charges may be added without prior notice.

WITHDRAWAL REGULATIONS

Any law student who at any time within the school year wishes to withdraw from the University should contact the Office of the Registrar. To avoid failure in all classes for the semester and in order to receive any financial adjustment, the withdrawing student must obtain the appropriate clearance from the Dean of the Law School and from the Assistant Vice President for Residence Life.

On the first day of classes, a full tuition credit will be made. Following the first day of classes, the tuition fee is subject to a prorated adjustment/credit if the student (1) withdraws voluntarily for any reason on or before the last day for course discontinuance at the University, or (2) is suspended, dismissed or involuntarily withdrawn by the University, for any reason, on or before the last day for course discontinuance at the University, or (3) is later obliged to withdraw because of protracted illness, or (4) withdraws involuntarily at any time because of military service, provided that no credit is received for the classes from which the student is forced to withdraw.

Upon return of the student forced to withdraw for military service, the University will allow that student credit for the portion of tuition charged for the semester in which the student withdrew and did not receive academic credit.

Room and board charges will be adjusted/credited on a prorated basis throughout the entire semester.

Students receiving University and/or federal Title IV financial assistance who withdraw from the University within the first sixty percent (60%) of the semester are not entitled to the use or benefit of University and/or federal Title IV funds beyond their withdrawal date. Such funds shall be returned promptly to the entity that issued them, on a pro rata basis, and will be reflected on the student's University account.

This Withdrawal Regulation may change subject to federal regulations. Examples of the application of the tuition credit calculation are available from the Office of Student Accounts upon request.

COURSE DESCRIPTIONS FOR THE 2005–2006 ACADEMIC YEAR

This alphabetical list of course descriptions consists of courses that the Law School plans to offer during the 2005–06 academic year. The Law School administration reserves the right to alter the course offerings to meet faculty interest, student interest, and the administrative needs of the Law School.

Lecture hours per week, laboratory and/or tutorial hours per week, and credits each semester are in parentheses.

Instructors listed for each course are accurate at the time this catalog was published. Instructors may change to meet the needs of the faculty and administration.

Accountability for Gross Violations of Human Rights [70409]

(V-0-V) Cassel

Compares the approaches followed in different countries to deal responsibly with past violations of human rights, in order to assess the benefits and shortcomings of each. Draws upon selected readings as well as upon the individual experiences of course participants. Examines the various means of establishing accountability, including “lustration” laws, truth commissions, and national and international prosecutions. Also considers the influence of obstacles such as political instability, amnesty laws, statutes of limitations, and claims of superior orders.

Accounting for Lawyers [70100]

(3-0-3) M. Barrett

Highlights the importance of issues involving accounting to the practice of law. To practice law effectively, every lawyer should understand certain fundamentals about accounting and financial statements. Topics include: the bookkeeping process; the basic financial statements; the evolving nature of generally accepted accounting principles; audit reports and accountants’ legal liability; the time value of money; financial statement analysis and financial ratios; drafting and negotiating agreements and legal documents containing accounting terminology and concepts; responses to an auditor’s request for information about legal contingencies and related discovery issues; and cost allocation issues. Designed for students who have little or no accounting background as an aid to the study of Business Associations, Federal Taxation, Business Planning and other courses.

Enrollment: limited to students who have not earned more than six semester hours of college credit or the equivalent in accounting courses.

Accounting Seminar in Selected Topics Involving Law and Accounting [73147]

(3-0-3) Barrett

Examines in detail various legal issues and topics that involve financial accounting. Presumes basic knowledge of financial accounting concepts and principles. Unlike Law 70100 (Accounting for Lawyers) any interested student can enroll in this course. Topics may include international accounting principles; multi-disciplinary practices and “independence” standards; accountants’ legal liability; management’s discussion and analysis; drafting and negotiating agreements and legal documents containing accounting terminology; revenue recognition and earnings management; “true sale” opinions; potential opportunities for obtaining and using accounting-related information about an underlying lawsuit in litigation; cost allocation issues; various valuation techniques; and accounting for business combinations. Requires the writing and presentation of a twenty-page paper examining some issues considered during the course.

Administrative Law [70315]

(3-0-3) Rodes

Studies the powers and procedures of administrative agencies including: the operation of the Administrative Procedure Act; the functioning of the administrative process at the federal and state levels; and the methods and extent of judicial control over agency action.

Admiralty Law [70321]

(2-0-2) McLean

Inquires into jurisdiction and substantive principles in the area of maritime law. Investigates the existing and developing law of the sea.

Advanced Environmental Law [73327]

(2-0-2) Nagle

This seminar will consider a variety of current environmental law topics that are not covered in detail in the basic Environmental Law course. Each week the class will consider such issues as global warming, the use of ballot initiatives to create environmental law, brownfields, municipal water pollution, nuclear waste, public lands management, and light pollution. The precise topics to be studied will be determined during the semester, based in part upon student preferences. Each student will prepare a seminar paper that will satisfy the upper-level writing requirement, along with a few short assignments during the course of the semester. Taking the basic Environmental Law course is recommended, but it is not a prerequisite.
