What would you like to do?

**Registration Status and Holds**
View registration status, update student term data, and complete pre-registration requirements.

**Add/Drop Classes**
Search and register for your classes. You can also view and manage your schedule.

**Browse Classes**
Looking for classes? In this section you can browse classes.

**Schedules**
View your past schedules and your ungraded classes.
Search by term – but previous terms are “VIEW ONLY”
Check the Box “Open Sections Only” to search for only classes with available seats
Subject, Course Number and Course Number Range give more search options.
Unless you choose a campus from the dropdown, you will search ALL campuses by default.
Use the Basic Search Screen or use Advanced Search for more options.
KEYWORD and TITLE are both freeform fields but: KEYWORD works like a google search returning every instance including your keyword whereas TITLE requires “Wild Card” of % if searching by just a portion of the title.
Examples of how to Search KEYWORD and TITLE

Keyword Search
• Looking for any mention of “poverty”?

• Search “poverty”

Title Search
• Looking for any course title including the word “poverty”?

• Search “%poverty%”
Allows schedule building based upon geographical location of class
Instead of searching by term, search by date to find courses from multiple terms.
Use this feature to search all courses taught by specific professor in the past 10 years...

Add/Drop Classes

Creating and Changing Your Class Schedule
Student Access through InsideND
Add/Drop Classes
Search and register for your classes. You can also view and manage your schedule.
Screen divided into three panels with toggle buttons to change views
Top Panel has 3 Tabs: Find Classes, Enter CRNs, and Schedule and Options
Find Classes allows you to ADD the class to your summary
Once added to the **Summary** panel, status will display as “Pending” and appear with diagonal gray/white coloring on **Schedule** panel.
You must press SUBMIT to process the “Pending” classes
Courses without errors will appear in bold colors on the Schedule panel, a status of “Registered” in the Summary panel and the Notification of “Save Successful”
Courses with errors will appear in pink on the Schedule panel, a status of “ErrorPrevents...” in the Summary panel and the Notification will list ALL errors.
To “Remove” courses with the errors from your Summary panel, SUBMIT again. Exception: if error is “Missing Coreq”, add the required coreq to Summary panel, change action from “Remove” to “Web Registered” and SUBMIT again
As you build your schedule, future searches will identify Time Conflicts.
If the CRNs are known, go to Enter CRNs tab to add the classes to your Summary panel
HELPFUL HINTS

Crosslisted Classes – Comparison of Browse Classes and Class Search
A search in *Browse Classes* shows the class THEO 40245 is FULL with 0 of 28 Seats available. You can see that the class is crosslisted as CNST 40601 and MI 40433 but not if there are seats remaining in the crosslisted sections.
Class Search provides a clearer view of remaining seats in a crosslisted class.
HELPFUL HINTS

Variable Credit Classes
Step 1: Register for the variable credit class – it will default to lowest credit hour permitted
Step 2: Go to Schedule and Options tab and locate your variable credit class in the Summary. Variable credits are **underlined and in light blue font** indicating it is a modifiable field. Click on the credit hour number you want to change.
Step 3: Enter the desired credit hours. SUBMIT to save your change.
HELPFUL HINTS

Conditional Add/Drop
Step 1: Add new class to your Summary panel
Step 2: For the class you want to drop, change the dropdown menu from “None” to “Web Dropped” in the Action column
Step 3: Check the **Conditional Add and Drop** box, then SUBMIT.
Step 4: Confirm “Save Successful” Notification and that Summary panel reflects the Add/Drop. Note: if the swap is not successful, the error will be displayed and no change will be made to your schedule.
